Professional Summary

A highly motivated and detailed oriented IT student with a strong foundation in programming, software development, and data structures. Possess hands on experience in coding with languages such as C++, and proficiency in web development technologies including HTML and CSS.

Demonstrated ability to work on collaborative projects, problem solving skills, and a passion for continuous learning in emerging technologies. Eager to apply academic knowledge and technical skills in a dynamic environment to contribute to innovative solutions and advance my career in software engineering.
